THE GREEN AT UNIVERSITY CITY

THE GREEN SITE PLAN

30 Years of Exceptional Development
cambridgeprop.com

The Mack Building and Bonded Building are a part of master-planned The Green at University City (The Green) located the University City Boulevard Station of the CATS light rail system and at the major interchange of I-85 and University City Blvd. The Green is anchored by Topgolf N. Charlotte and The Finley, a 345-unit luxury apartment community.

The Mack Building is located next to Topgolf, a half-mile walk from the light rail station. Constructed in 1978 to function as a pharmaceutical manufacturing facility it is today being reimagined and adaptively reused for retail, restaurant, and athletic entertainment space. Utilizing the existing structure, including a mezzanine level, 30'+ ceiling heights, and outdoor patio area, a dynamic format throughout the interior extends onto the updated exterior of the building.

The Bonded Building has historically been utilized for logistics and warehousing, but is today being adaptively reused and positioned for retail, restaurant, entertainment, and athletic uses. The Bonded Building benefits from excellent visibility to both I-85 and the I-85 Connector.

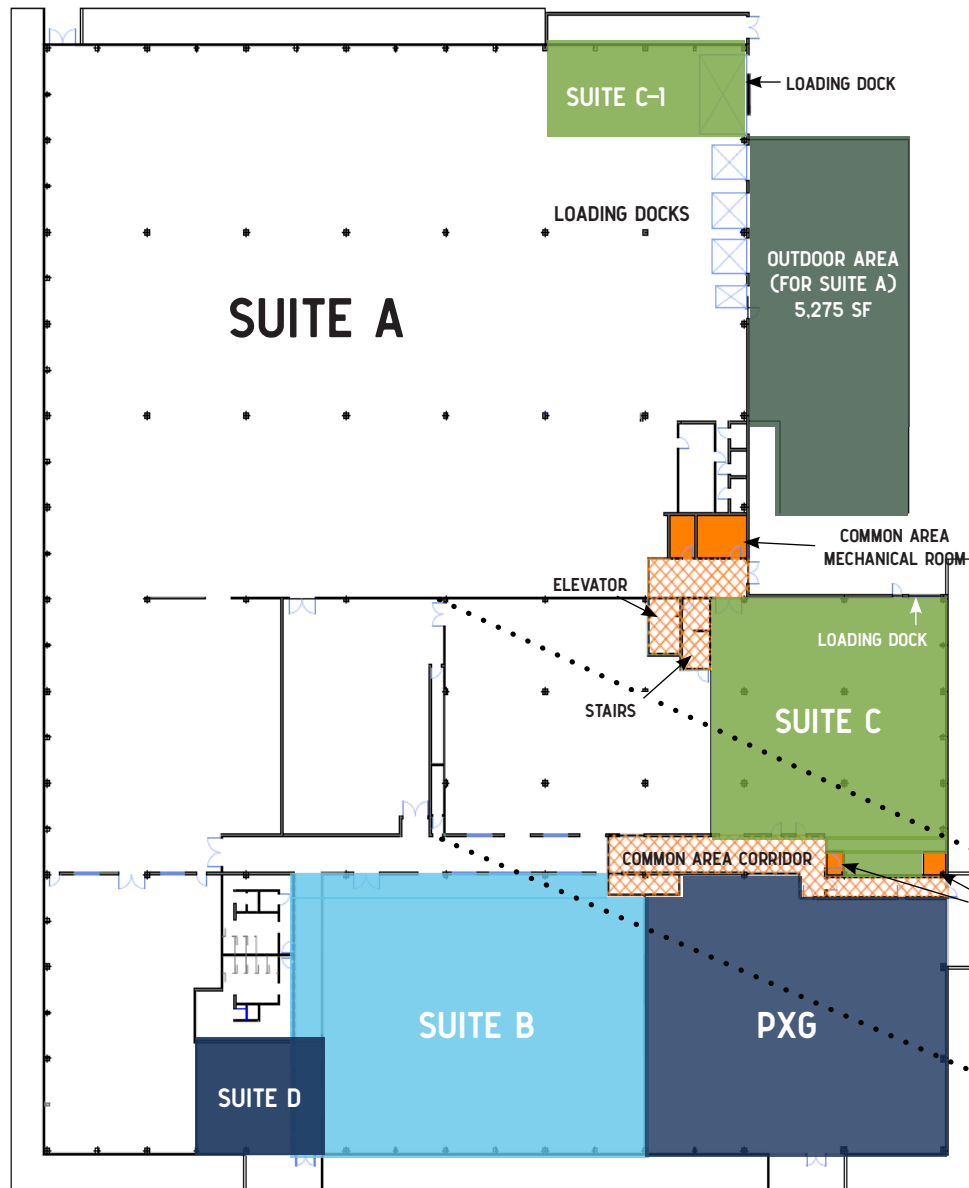

THE MACK

AVAILABILITY

Suite A- <i>Pending</i>	55,737 SF
Suite B	8,827 SF
Suite C	5,764 SF
Suite C-1	1,827 SF
